

Capturing 'Moments'

With over twenty years of experience in fine arts, I have found my niche in artistic photography. For me, taking pictures is about capturing and sharing what I call 'moments' ... unique points in time that people often overlook or have yet to discover. Whether the 'moments' are mine, such as those found in the Galleries within my website, or yours through my For Hire services, I would consider it a privilege to share them with you.

Sample Pieces ...

For Hire Services ...

Gallery & Commissioned Artwork

Browse the galleries on my website for a 'moment' that inspires you. If you don't see what you are looking for, consider a commissioned assignment. At your request, I will seek out and shoot the subject matter you need using the photo style you specify (full color, black & white, sepia, etc.).

Portraits

To capture what you feel in the 'moments' you share with someone special in your life, consider a portrait session. Ideal for families, grandparents or children, pets, holiday or thank you cards, invitations, online photo gifts, modeling or acting headshots.

Event Photography

To capture the 'moments' that make up your special event, consider having me photograph it. Ideal for charity or corporate events, school functions, dinner, birthdays, anniversaries, Bar & Bat Mitzvah, Sweet Sixteen, Communion, family gatherings or reunions.

Website & Publishing Content

To show others your unique qualities, the 'moments' that are important to you personally or professionally, consider including custom photo content - rather than clip art or stock photo. Ideal for family or business websites or blogs, business publications, social networking or dating sites.

My Work...

Can be found in published books as well as in private homes and commercial office space in:

New York, NY
Westchester County, NY
Long Island, NY
Jersey City, NJ
Mt. Snow, VT
